

THE POWER OF CONNECTION

CUE-Rx™

DON'T MISS A DOSE.

He doesn't know he missed a dose...

...but you will.

PEOPLE ARE TALKING ABOUT **cue-Rx™**

*“I was driving 45 minutes each way after work to ensure that my Dad took his meds. I purchased cue-Rx™ and it changed my life. It was easy to set up, the text alerts are great, and Dad hasn't missed a dose yet! **cue-Rx™ changed my life by giving me back 90-minutes each day.**”*

- Kelly, Philadelphia, PA

Now there's a **NEW** way to manage medications at home

Introducing

CUE-Rx™
Advanced Medication Management System

MEDICATION NON-ADHERENCE IS A MAJOR PROBLEM.

You want your loved ones to stay as healthy as possible. But did you know that **over 50% of patients do not take their medications as prescribed?**¹

- **Medication non-adherence is one of the leading causes of death in the US¹** and it results in 10% of all hospitalizations each year.¹

- **Over 34 million people like you are caring for their parents or family members²** – often juggling jobs and young families as well.

- **More and more families have to resort to in-home care,** or assisted living communities to ensure their loved ones medicate correctly.
- **Many older people want to live independently longer** and their families need peace of mind that medications are taken correctly.

HERE'S HOW IT WORKS:

PLUG IT IN
NO cellular data plan required.

CONNECTED
The unit is connected to Healthcare providers and selected caregivers.

REMIND
When it is time for medication, cue-Rx™ alerts the user with customizable light and sound cues.

ALERT
If a dose is missed: it sends text, phone or email alerts.

cue-Rx™ DELIVERS PEACE OF MIND TO THE WHOLE FAMILY

- ✓ **cue-Rx™ lets you and your healthcare provider know if your loved one took their medication in real-time,** every time.
- ✓ **Prevents** prescription under/over use.
- ✓ **Pills stay in their original bottle** so any warnings are clearly visible (holds 10 standard size bottles.)
- ✓ **Simple enough for anyone** to use right at home.

NOW, THERE'S A PROVEN SOLUTION.

cue-Rx™

cue-Rx™ automatically alerts patients and caregivers when a dose is missed and offers real-time visibility on patient adherence.

Your healthcare provider can **monitor medication adherence at all times.**
